Art Unit: 3728

1. Applicant's election of the species of Figures 1-8A in the reply filed on May 23, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 21-22 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 21, line 3, and claim 22, line 2, "said elastic band" (singular) is inconsistent with "at least one elastic band" of claim 1, and should be --said at least one elastic band--. **This inconsistency is also found in the non-elected claims and should be corrected.**

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 20 and 23 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Vujovich (4,826,042). Vujovich discloses a case comprising a housing (10) having a hollow interior and channels (31) proximate a perimeter of two longitudinal sides of the housing at two sides thereof, a first end cap (60) and a second end cap (12) and at least one elastic band (52 or 53) positioned within each channel, the first end cap fixedly secured and the second end cap releasably secured.

5. Applicant's arguments with respect to claims 1, 20 and 23 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Claim 21 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. Dependent claim 22 would also then be allowable.
